In accordance with the Corporations Act, the Company will disregard any votes cast in respect of the Agenda Item 2 Resolution (Remuneration Report):

- (i) by or on behalf of a member of a key management personnel of the Company whose remuneration is disclosed in the Remuneration Report and a closely related party of such key management personnel; and

The Company's Remuneration Report identifies the Company's key management personnel. "Closely related parties" of key management personnel are defined in the Corporations Act, and include certain of their family members, dependants and companies they control.

2 Explanatory Notes

These explanatory notes have been prepared for the information of Shareholders in connection with the business to be transacted at the Meeting.

2.1 Agenda Item 4 – Share Buyback Program

(a) Background

The Company is proposing to implement an on-market buyback of up to 20 million Shares in the manner outlined in this Section 2.1 (**Share Buyback Program**)

The Corporations Act authorises a listed company to buyback its own shares on market if the buyback does not materially prejudice the company's ability to pay its creditors and it follows the procedures required in the Corporations Act.

Shareholder approval is required if all of the shares bought back in the last 12 months, and the shares that will be bought back if the proposed buyback is made, is in aggregate more than 10% of the minimum number of shares on issue at any time during the last 12 months. The limit after which a company requires shareholder approval for a buyback is called the **10/12 limit**.

At the date of this Notice of Meeting, the Company is able to acquire 11,953,279 Shares without Shareholder approval. The Company wishes to buy back on market a total of 20 million Shares, which is 8,046,721 more Shares than it is permitted to do under the 10/12 limit, and accordingly seeks Shareholder approval for the Share Buyback Program.

(b) Reasons for the Share Buyback Program

The Share Buyback Program offers an opportunity:

- (i) to return capital to Shareholders, as would be contemplated by a closed end fund; and
- (ii) to better match recurrent earnings with capital employed.

It is also an efficient use of capital when Shares trade at a discount to inherent net asset value of the Company.

The 10 day volume weighted average price (VWAP) of the Shares for the period expiring on 29 September 2017 currently trades at a 15% premium to the Company's reported net asset value (as at 30 June 2017). This excludes the significant currently unrecognised uplifts in the value of certain key property investments as explained on page 3 of the Company's Annual Report, amounting to 45 cents per share. After considering the impact of the unrecognised uplifts in the value of the property investments the VWAP currently trades at a 7% discount to the inherent net asset value.

(c) Details of the Share Buyback Program

The key details of the proposed Share Buyback Program are as follows:

- (i) **Price range:** The Company will in its discretion offer to buy back Shares on market at a price determined by the Company subject to the ASX Listing Rules. The ASX Listing Rules impose a moving cap on the price the Company may pay for the Shares of 5% above the average market price per Share for the 5 days on which trades were recorded before the day on which the purchase under the buyback was made.

- (ii) **Maximum number of Shares:** The maximum number of Shares to be bought back is 20 million Shares. The maximum number of Shares to be bought back represents approximately 16.7% of the Company's total issued share capital of 119,532,788 Shares at the date of this Notice of Meeting.

(d) Advantages of the Share Buyback Program

The key advantages of the Share Buyback Program are as follows:

- (i) Provide liquidity to the Shares. There is a limited market for the Shares on the ASX. The Share Buyback Program gives Shareholders an increased ability to exit their investment in the Company should they wish to do so;
- (ii) An efficient use of surplus capital in a market where finding suitable investments is proving difficult; and
- (iii) Increased price competition for the Shares.

(e) Disadvantage of the Share Buyback Program

The key disadvantage of the Share Buyback Program is that it reduces the cash balances of the Company. If the maximum number of Shares is bought back by the Company, the cash balance would be reduced by approximately A\$43.0 million (using the 12 October 2017 closing share price of A\$2.15 as an indication of the average price at which Shares may be bought back). The cash balances of the CVC Limited consolidated group as at 30 June 2017 was A\$41.7 million respectively. These cash balances do not reflect investments made and realised subsequent to 30 June 2017.

(f) Funding for the Share Buyback Program

The Share Buyback Program will be funded from the Company's cash reserves. The Directors do not believe that the Share Buyback Program will materially prejudice the Company's ability to pay its creditors.

(g) Effect of the Share Buyback Program on the capital structure of the Company

The Directors do not anticipate that the Share Buyback Program will have any material effect on the ownership spread of Shares or result in any party gaining control of the Company.

(h) Consequence if this Resolution is not passed

If this Resolution is not passed, the Company intends to buyback on market the maximum number of Shares permitted under the 10/12 limit without Shareholder approval.

(i) Directors' recommendation

The Directors recommend that Shareholders vote in favour of this Resolution. None of the Directors has at this time an interest in the outcome of this Resolution.
